

Extension: Overview of 21st Century Skills

Name _____

Date _____

Your Turn Complete the following before/after organizer. First identify the ways in which people learned and worked before the computer age. Then identify the ways in which people have been learning and working since computers became so important in school and the workplace. (Do some research to fill in the chart with pertinent details and information.)

Learning and Careers Before and After Computers

Before	After

Follow-up: Write a brief explanation of the information you gathered in the graphic organizer above.
